Std. - X

Summer Vacation 2026-27

Subject: Geography

Chapter 1: Resources and Development

I. Multiple Choice Questions

- A. Which of the following is a biotic resource?
1. Rocks
 2. Water
 3. Forests
 4. Minerals
- B. Which soil is formed by river deposits ?
1. Black soil
 2. Red soil
 3. Alluvial soil
 4. Laterite soil
- C. Which soil is ideal for the cultivation of cotton?
1. Alluvial soil
 2. Black soil
 3. Laterite soil
 4. Red soil
- D. Which factor determines the use of land?
1. Topography
 2. Climate
 3. Human resources
 4. All of the above
- E. Which of the following is a renewable resource?
1. Coal
 2. Petroleum
 3. Solar energy
 4. Natural gas

II. Choose the correct option:

- A. Both A and R are true and R is the correct explanation of A.
- B. Both A and R are true but R is not the correct explanation of A.
- C. A is true but R is false.
- D. A is false but R is true.

1. **Assertion (A):** Resource planning is essential for sustainable development.

Reason (R): Resources are unevenly distributed over the earth.

2. **Assertion (A):** Black soil is called regur soil.

Reason (R): It is rich in potash and suitable for cotton cultivation.

3. **Assertion (A):** Land degradation is caused by deforestation.

Reason (R): Trees help in binding the soil particles together.

III. Short Answer Questions (2 Marks Each)

- A. Define resources. Mention any two characteristics of resources.
- B. Why is resource planning important in India? Give any two reasons.
- C. Distinguish between black soil and alluvial soil.
- D. What is sustainable development?
- E. Explain any two problems caused due to indiscriminate use of resources.
- F. Explain any three measures to control land degradation.

IV. Long Answer Questions (5 Marks Each)

- A. Explain the different stages of resource planning in India.
- B. Describe the major soil types found in India and their characteristics.
- C. Explain the factors responsible for land degradation in India.
- D. "Resources are vital for human survival." Explain the statement with suitable examples.

V. Case-Based Question (4 Marks)

Read the passage carefully and answer the questions:

"Indiscriminate exploitation of resources has led to global ecological crises such as global warming, ozone layer depletion, environmental pollution, and land degradation."

- A. Name any one ecological crisis mentioned above.
- B. What is meant by indiscriminate exploitation of resources?
- C. Suggest any two measures for sustainable resource development.
- D. Why is conservation of resources important?

VI. Map-Based Question

On the outline map of India, locate and label: **Soil types of India.**
